

Please join us at this electrifying event on  
**Wednesday, May 6, 2009**

This installment of the Berkeley Stanford Cleantech Conference Series (BSCC) – “Energy Storage: Enhancing the Value of Renewables” is the third in a continuing series of focused conferences highlighting clean technology solutions to address the planet’s multifaceted energy challenges. Panelists and speakers in this conference will include:

- + Annabelle Louie (Emerging Clean Technology Policy, PG&E)
- + Ed Cazalet (VP, Megawatt Storage Farms)
- + Sven Thesen (Communication & Technology, Better Place)
- + Nick Hodson (Principal, McKinsey & Co)
- + Eric Wesoff (Senior Analyst, Greentech Media)
- + Andrew Wang (Senior Development Manager, Solar Reserve)
- + Haresh Kamath (Senior Project Manager, EPRI)
- + Craig Horne (CEO, EnerVault)
- + Mohit Singh (Director of Technology, Seeo)
- + Marianne Wu (Partner, Mohr Davidow Ventures)

Moderators will include:

- + Nadeem Sheikh (McKinsey & Co.)
- + Pramod Kulkarni (California Energy Commission)

Registration

**1:00 – 1:20pm**  
Welcoming remarks

**1:20 – 2:50pm**  
Policy Panel

**2:50 – 3:15pm**  
Networking break

**3:15 – 4:45pm**  
Technology Panel

**4:45 – 5:10pm**  
Michael Liebreich, CEO of  
New Energy Finance

**5:10 – 6:00pm**  
Commissioner Jeff Byron,  
California Energy  
Commission

**6:00 – 7:00pm**  
Wine and Cheese  
Reception

## Location

Lawrence Hall of Science  
1 Centennial Dr  
Berkeley, CA 94720
